Other Product Range

High Pressure
Compressed Air Dryer

Line Filters

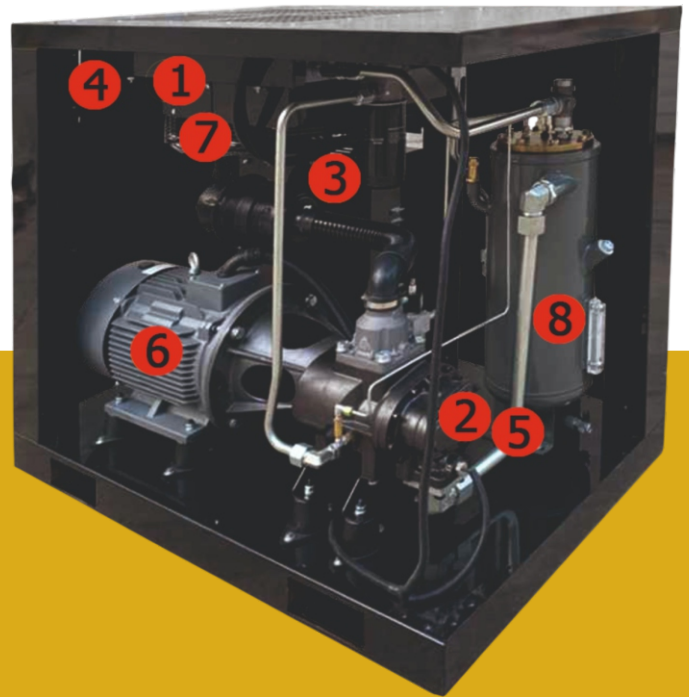

High Quality of
Accessories & Spare Parts

Highlights Feature of Screw Air Compressor

- Built with European Quality standards
- Large Pre Filter to increase life of internal components
- Easy access to all components, doors open from all sides

High Efficiency Motor

High Efficiency Induction Motor

Low Speed-Direct Drive Screw Element

- Low maintenance cost
- Increased life of bearing

Energy Efficient Drive

- Specially designed for compressor application
- Safety protections like Single Phasing "Motor Overload, Current imbalance, over voltage, low voltage, High Pressure Tripping"

Simple user friendly controller with outstanding functions

- Color coded on/off buttons
- Fault indication and reset function
- Reverse rotation protection
- LCD display
- Service warnings

Complete Stainless Steel Piping

- No Rubber Hoses
- Less maintenance cost

High Efficiency Combi Cooler

Oversized Coolers designed for High Ambient Temperatures upto 50° C

Radial Fan

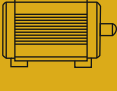

- High Efficiency Radial Fan
- No Thermostat Fan Start/Stops on the basis of temperature

High Efficiency Oil Separator

- Less Oil Carryove

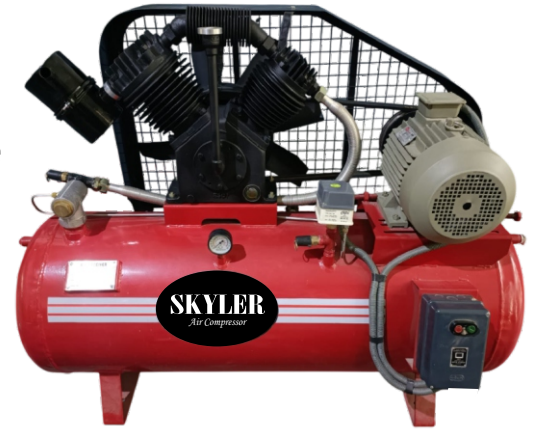

- Pre-Filter with dusty atmosphere
- Low cost, easy installation & ease to maintenance

Two Stage Aircooled Reciprocating Air Compressor

 Model	 Piston displacement		 Free air delivery*		 Motor power		 No. of cylinders	 Air receiver
	lpm	cfm	lpm	cfm	HP	KW		Litres
ASE 03 120	311	10.7	250	8.8	3.0	2.2	2	150
ASE 05 120	501	17.7	410	14.5	5.0	3.7	2	230
ASE 07 120	700	24.8	580	20.7	7.5	5.5	2	250
ASE 10 120	997	35.4	850	30.1	10.0	7.5	3	420
ASE 15 120	1535	54.3	1250	44.1	15.0	11.0	3	500

About Us

Skyler Screw Air Compressor is most trusted and reliable name in Screw Compressor industry. We offers complete solution for compressed air system for the industry with Screw Air Compressor, Refrigerant Air Dryer, Oil Free Water Injected Screw Compressor, Air Receiver, Oil Free Piston Compressor, Reciprocating Air Compressor and Filters. Our compressor offering advanced technology with precision design, high efficiency air flow with energy saving ways.

Skyler Screw Air Compressor have most talented sales staff with well experienced, skilled and dedicated to provide the customer fine quality of compressors and give around the clock service, wherever the customer needed. Our engineers and technicians ensure that each machine is designed to pack with most efficient and effective way possible. Highly skilled mechanics take pride in assembling high quality parts into exceptional machines. Our trained technicians examine every single assembled machine to see that it is operating perfectly before it leaves the premises. Finally, the sales staff utilizes its extensive knowledge to ensure that customers receive the product they had ordered.

Vision & Mission

Our mission is to delight our customer all the time by delivering on time zero defect air compressor and its parts. Innovation and continuous improvement in all areas shall be our priority for maintaining product performance with cost competitiveness. We are committed to providing best after sales service backup to our customers.
